Global Attribute Verification

The Invisible Layer for Zero-Friction Onboarding

Verify. Pre-Fill. Approve.

In the race for customer acquisition, friction is the enemy. Shufti Passive eIDV acts as your invisible verification layer, validating user identities in the background against 230+ data sources

(Government) (Credit) (Utility) (telco)

without ever asking for a document upload.

Unified Identity Layer, Choose the right verification methods per country through a single integration, whether it's a light-touch age check for gaming or a **2×2 cross-check** to block synthetic fraud in fintech. Our platform keeps genuine customers moving while stopping fraud without a single click.

Why Choose Passive eIDV?

Pre-fill Services
Auto-populate registration forms (Name, Address, DOB) using just a phone number or national ID to slash typing friction and eliminate drop-offs.

Instant Background Check
Verify users in **< 3 seconds** and flag inconsistencies using 2x2 Logic (dual-source cross-checks), ensuring speed without compromising security.

Doc-less Attribute Verification
Verify "18+" status and residency instantly across **40+ countries**, satisfying compliance without manual bill uploads.

Stop Synthetic Fraud
Combine Document Verification with Passive eIDV to validate the physical ID against digital records, blocking sophisticated fraud.

Built for Privacy
Return only the status (e.g. "Matched") or specific attributes requested to ensure Data Minimization and strict GDPR/CCPA compliance.

Single Platform, Single API
Streamline operations by integrating Passive, Biometrically Enriched, and Active eIDs through one unified connection.
