

eIDV FOR TRAVEL

## Frictionless Check-In, Built on Trust

Streamline Check-In, Stop the Scammers.

More contactless travel means more online check-ins, and that makes fraud a bigger risk with every booking. Shufti's eIDV acts as a **Unified Identity Layer**, connecting your airline or hotel to hundreds of eIDs, mobile wallets, and biometrically enriched data sources. We verify real guests in seconds to keep lines short and scammers out.

### Unified Identity Layer

Shufti's eIDV allows you to choose the right verification methods per country, according to your need, whether it's auto-filling a passport number during booking or securing a VIP check-in with a biometric match.

**Shufti eIDV is a unified global digital identity layer that lets you choose the right mix of passive checks, active eIDs, and biometrically enriched sources, while keeping data minimised and fraud under control.**

## The High Stakes of Telecom Fraud

The cost of a stolen number is rising. Is your network secure?

### Payment & Booking Fraud (\$11.2B)

The industry lost an estimated \$11.2 Billion to payment fraud last year, with fraudulent bookings averaging \$1,500.

### Bot Scalping (27%)

AI-powered bots now account for 27% of activity, "spinning" seats and hoarding tickets to distort availability.

### Dark-Web "Agencies" (\$37B)

Fraudsters used stolen credit cards to make \$37 Billion in illegal travel bookings in 2024.

### Loyalty Program Exploits

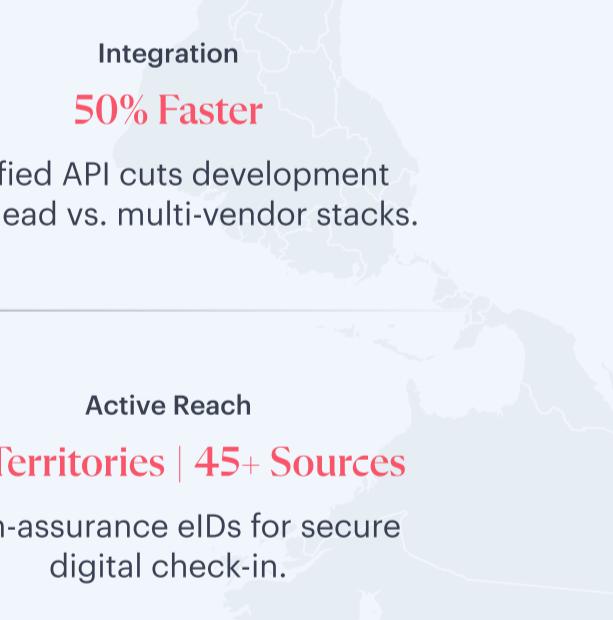

Travel merchant fraud increased for 75.7% of the sector, with hackers draining miles and points.

### Account Takeovers (+65%)

A massive year-over-year spike in ATOs is fueling disruptions at scale.

## Your Travel & Hospitality Passport

Solving Core Travel Challenges.

### Strong Docless Check-In (The Friction Killer)

Enable mobile check-in without front desk queues. Use Biometrically Enriched eIDV or Active eID to match guests against government databases, allowing secure remote access in < 3 seconds.

### Pre-fill & Zero Typing (Booking Engine)

Reduce mobile booking abandonment. Pre-fill Services fetch verified Name, Address, and Passport details from Telco and Government sources using just a phone number, ensuring error-free data.

### Loyalty Account Protection

Stop hackers from draining frequent flyer miles. Require a Biometrically Enriched selfie or Active eID login before redeeming points, ensuring the account owner is present.

### Synthetic & Bot Defense

Stop scalper bots and fake bookings. Our "Combo" Check combines Document Verification with Passive eIDV to cross-reference physical IDs against digital records, blocking 95% of synthetic identities.

## Feature Matrix Your Unified Identity Layer

### Module

### Core Capability

### Travel Strategic Edge

#### Passive eIDV

#### Attribute-only checks (Name, DOB, Address). Satisfies PoA & Age mandates.

Instant Pre-Screening. Validate guest data against **230+ sources** instantly to block sanctions/PEPs early.

#### Pre-fill Services

#### Data Auto-population. Fetches verified details from Telco/Govt sources.

Zero-Typing Experience. Auto-fill booking forms using just a phone number to slash drop-offs.

#### Active eIDV

#### Strong authentication via eIDs, wallets, and bank logins (e.g. BankID).

Gold Standard Compliance. High-assurance identity proofing for border control or VIP access across **30 territories**.

#### Doc-less Address & Age

#### Verified Attributes. Confirm Age and PoA via database checks instead of document uploads.

Zero Friction Compliance. Verify age for car rentals or restricted bookings without asking for an ID scan.

#### Synthetic Defense

#### Combo Orchestration. Combines Passive eIDV + Document Verification.

Defeat Scaler Bots. Cross-reference digital data with physical documents to expose automated attacks.

#### Passive Reach

#### Biometric Matching. Matches live selfies against government database images.

Stop Loyalty Fraud. Trust the guest, not just the password, by verifying the person behind the screen.

#### Active Reach

#### Address Coverage. Verify age for car rentals or restricted bookings without asking for an ID scan.

Zero Friction Compliance. Verify age for car rentals or restricted bookings without asking for an ID scan.

## Performance You Can Bank On

### Verification Speed

< 3 Seconds

Higher conversion rates for travelers; higher conversion rates for you.

### Integration

50% Faster

Unified API, multi-vendor stacks overhead vs. multi-vendor stacks.

Massive reach for guest verification and global sanctions screening.

Active Reach

30 Territories | 45+ Sources

High-assurance eIDs for secure digital check-in.

Passive Reach

Passive Reach

65+ Territories | 230+ Sources

Massive reach for guest verification and global sanctions screening.

Address Coverage

Address Coverage

40+ Territories | 180+ Sources

Satisfy PoA mandates without manual documents.

Age Coverage

Age Coverage

50+ Territories | 170+ Sources

Satisfy Age mandates without manual documents.
