5.4. Timing of Verification

Identity Verification is not limited to a one-time, one instance process. In fact, it is required in multiple instances as per regulations. The application and choice of when to deploy Identity Verification procedures depend on your requirements and it's conveyance to Shufti Pro.

You are to pursue Identity Verification when you onboard a new Customer. If you are dealing with transaction data, you should apply Identity Verification as per the monetary thresholds defined in Kuwaiti regulations. In other instances, Identity Verification becomes more important to employ if you face higher risks from your Customers. A high-risk situation

would be any instance where an Individual might represent above normal exposure of money laundering related threats to you.

6. Politically Exposed Persons and EDD Measures

As per the Enhanced Due Diligence requirements under Kuwaiti regulations, you are required to determine if your Customer is a Politically Exposed Person, holds a public office, or exhibits a higher risk profile. In order to fulfill your obligations, Shufti Pro provides you its AML Screening service. The service screens an individual's selected ID attributes of *Name* and *DOB* against watchlists of global regulatory authorities, foreign and domestic databases, compromised PEPs and sanctioned individuals.

The service highlights the category of the PEP based on the degree of risks they pose and also any immediate family member, or a close associate of the PEP.

You may utilize such services as per your requirements. This includes before or after establishing a relationship with your Customer.

7. Reliance on External Services

Kuwaiti regulations state that you may seek the services of a third party to apply measures of due diligence. Regulations also require you to collect all such data (Diligence Information) from the third party, without undue delay. In this scenario, we will be the external third-party service provider to you.

Kuwaiti regulations state that you, regardless of reliance on a third party, remain liable for maintaining all such compliance and fulfilling AML and KYC obligations.

8. Record Retention

As per Kuwaiti regulations, you are required to retain data for not less than five (5) years. These are a part of your AML and KYC obligations for due diligence. In the case where this information is processed, collected and managed by a relevant third-party, you are liable to collect all such necessary information (Due Diligence Data) from the third party without undue delay.
