## 1. Introduction

Sri Lanka introduced its framework on anti-money laundering and countering the financing of terrorism to criminalize money laundering and lay down appropriate safeguards and guidelines. These regulations regulate the rights and obligations of legal persons and natural persons in preventing and detecting money laundering and terrorist financing. These regulations also contain provisions regarding customer screening, identification, and verification of customers.

## 2. Scope

The 'Sri Lanka - AML KYC Regulations' report may be used as a reference to highlight information from Sri Lanka's '*Prevention of Money Laundering Act*'.

Under the guidelines from the Central Bank of Sri Lanka and the relevant act(s) mentioned below, this document highlights the necessary requirements for AML and KYC procedures, in particular, Identity Verification required in Sri Lanka. These requirements are approximated from relevant information/laws/directives contained in the aforementioned document(s).

#### 5. Due Diligence Requirements

##### 5.1. Identity Verification Requirements

As per the requirements of Sri Lanka regulations, these are the following ID attributes required for the purpose of identifying a natural person (individual) from official documents.

- Full name;
- Identification number;
- Permanent address;
- Telephone number;
- Date of birth;
- Nationality;
- Occupation.

##### 5.2. Compliant CDD Methods

We (Shufti Pro) may apply one or more of the following measures at the request of the Client to perform Identity Verification on its behalf. Where an End-user is an individual, who does not present himself to the Client for verification in physical presence.

- 5.2.1. Shufti Pro shall perform verification of the End-user's identity on the basis of independent sourced documents that are highlighted in 5.3. These documents provide reasonable reliability to the confirmation of the identity in Sri Lanka. Shufti Pro shall ensure that the documents being utilized are photo-based

biometric identification documents that suffice the requirements for Identity Verification.

- 5.2.2. Shufti Pro can also perform verification of the End-user's identity through a real-time audio-video transmission, where a live, interactive video session is carried out between an Identification Expert and the End-user. During this session, the End-user will be asked to show their identity documents. The End-user will also be asked to perform some random gestures as a part of a liveness check.
- 5.2.3. To verify the End-user's identity, Shufti Pro shall also verify the documents that are submitted. We utilize our specialized Document Verification service to perform checks on the authenticity of the document. This includes checks on security features such as holograms, tapered/crumpled edges, doctored elements, form inconsistencies, document expiration, MRZ, reflected colors, and microprinting.

### **5.3. Documents Required for Verification**

The following documents are considered in Sri Lanka as Proof of Identity:

#### **Identity Verification**

- Identity Card;
- Driving Licence;
- Passport.

#### **Address Verification**

The following documents are considered in Sri Lanka as proof of address:

- A current utility bill (such as gas, electricity, telephone, or mobile phone bill); (issued no more than three months ago that shows the End-user's address and name);
- Bank statement (issued no more than three months ago that shows the End-user's address and name);
- A document issued by a government department that shows the End-user's address and name.

### **5.4. Timing of Verification**

Identity Verification is not limited to a one-time, one-instance process. In fact, it is required in multiple instances as per regulations. The application and choice of when to deploy

Identity Verification procedures depend on your requirements and their conveyance to Shufti Pro.

You are to pursue Identity Verification when you onboard a new Customer. If you are dealing with transaction data, you should apply Identity Verification as per the monetary thresholds defined in Sri Lanka's regulations. In other instances, Identity Verification becomes more important to employ if you face higher risks from your Customers. A high-risk situation would be any instance where an Individual might represent above-normal exposure of money laundering-related threats to you.

## **6. Politically Exposed Persons and EDD Measures**

As per the Enhanced Due Diligence requirements under Sri Lanka's regulations, you are required to determine if your Customer is a Politically Exposed Person, holds a public office, or exhibits a higher risk profile. In order to fulfill your obligations, Shufti Pro provides you its AML Screening service. The service screens an individual's selected ID attributes of Name and DOB against watchlists of global regulatory authorities, foreign and domestic databases, compromised PEPs, and sanctioned individuals.

The service highlights the category of the PEP based on the degree of risks they pose and also any immediate family member, or a close associate of the PEP.

You may utilize such services as per your requirements. This includes before or after establishing a relationship with your Customer.

## **7. Reliance on External Services**

Sri Lankan regulations state that you may seek the services of a third party to apply measures of due diligence. Regulations also require you to collect all such data (Diligence Information) from the third party, without undue delay. In this scenario, Shufti Pro will be the external third-party service provider to you.

Sri Lanka's notice states that you, regardless of reliance on a third party, remain liable for maintaining all such compliance and fulfilling AML and KYC obligations.

## **8. Record Retention**

As per Sri Lankan law, you are required to retain data for not less than six (6) years.<sup>1</sup> These are a part of your AML and KYC obligations for due diligence. In the case where this information is processed, collected, and managed by a relevant third party, you are liable to
